MARINE SAVER VES1060 series Inflatable PFD

PFD TYPE 1
AS 1512

Available in different colours
RED, NAVY BLUE, OZ CAMOUFLAGE

SPECIAL FEATURES

- Comfortable and Durable
- Designed to float an unconscious person to a safe position with the head angled at 45° upwards in the water
- Free Float of > 120mm
- Able to withstand 10 psi of pressure
- Can withstand 200,000 flex cycles without physical impairment
- Reliable & Durable
- Light weight
- Has a lifting harness
- Detachable Sleeves version optional

ROARING FORTIES™ Marine Saver Vest is a sleeveless vest made from premium oxford nylon fabric (detachable sleeve version available). Polar fleece material on the collar and deep front pockets are some of the features this vest has to offer. The Inflatable PFD/Lifejacket sits (is sewn) on the vest.

Our Marine Saver vest is Australian Standard (AS1512) approved and exceeds the 150N buoyancy. This vest is unique in that the bladder when inflated is visible on the outside of the vest. This makes the vest less encumbering than those vests with the bladders housed between the skins of the vest fabric. In addition, our vest is non constrictive to your chest ie will not hinder your breathing movement. This design will provide very stable flotation and will right a person in a safe floating position ie face up at an inclined angle.

Our vest is also modular. Any minor addendums can be easily achieved without impairing the performance of the vest. It is very economical to service & repair.

Other features of this vest are:

- light weight and comfortable
- different colours to choose from
- suitable for all seasons
- deep front pockets for valueables
- Sizes to suit everyone (larger sizes can be arranged upon order)

Detachable Sleeves for colder conditions
