ROARING FORTIES™ SMA8000 series Aviation Life Rafts

The **ROARING FORTIES™** range of Aviation Life Rafts are manufactured from C.A.A. approved lightweight Neoprene fabric..

THESE ARE THE ONLY AVIATION LIFE RAFTS MADE IN AUSTRALIA & APPROVED BY CASA

- **ROARING FORTIES™** range of aviation Life Rafts is from size 4 persons to 11 persons. They are all approved by to TSO C70a by CASA. They essentially have twin buoyancy tubes with a self erecting canopy. The canopy tube can be deflated separately for evacuation & rescue purposes. Their repetitive canopies have the ability to withstand 52 knots of gusty wind and with a good sea anchor attached, the rafts will not drip drift significantly away from the point of deployment.

Other Features:

- Circular construction and lead weighted deep water pockets for better stability. Circular rafts ride the cross waves better;
- 2 entrance doors which can be closed. Only one door entrance has a boarding ramp attached ;
- Interior & exterior lights ;
- The canopy is self erecting.

The following are overload capacities of the **ROARING FORTIES™** Aviation Liferrafts:

- ---- For 4 persons, the overload capacity is 6 persons;
- ---- For 6 persons, the overload capacity is 9 persons;
- ---- For 8 persons, the overload capacity is 12 persons;
- ---- For 11 persons, the overload capacity is 16 persons.

- Aviation life rafts come complete with bailer, bellows, drogue, repair-kit and rescue line

Packed in either custom designed valises or lightweight fiberglass containers, specifically for aviation use.

Aviation Specifications Standard Equipments Only

Dimensions and Weight below are valise packed

Size	Dimensions (mm)	Weight
04P	640mm x 400mm Dia.	21 KG
